## SFSPac® Degreaser gains Green Seal™ GS-37 certification

May 13, 2015 CHICAGO—PortionPac Chemical Corporation is proud to announce that SFSPac® Degreaser has met the criteria set forth by Green Seal™ to attain certification under the GS-37 standard. In meeting GS-37 (*Cleaning Products for Industrial and Institutional Use*), SFSPac® Degreaser has surpassed the Standard's strict environmental benchmarks and performs as well as or better than other cleaners in its class.

“Our ultimate goal was to offer a complete food safety and sanitation program that is 100% Green Seal™ certified and EPA-registered,” said PortionPac president Burt Klein. “We have realized this goal with the certification of SFSPac® Degreaser; providing a truly unique sanitation program to our customers.”

Green Seal™ maintains the most rigorous voluntary environmental standards in the cleaning industry. Its comprehensive approach to certification involves evaluating every step of a product's creation from manufacture to disposal. GS-37 criteria cover health and environmental impacts, functional performance, packaging materials, labeling, and training. The evaluation process includes review of data; assessment of promotional materials; and an on-site audit of manufacturing facilities.

The certification of SFSPac® Degreaser by Green Seal™ conveys the benefits of a product that protects human and environmental health, conserves natural resources, reduces waste, and is proven effective for its intended use.

SFSPac® Degreaser is a concentrated liquid detergent to be used for heavy duty cleaning and degreasing of fryers, hoods, ranges, floors and other difficult to clean surfaces. It joins SFSPac® All Purpose Cleaner and SFSPac® Pot & Pan Detergent in the PortionPac family of products already certified by Green Seal™. [All Green Seal™ certified products are listed here](#), on Green Seal's website.

### About PortionPac

SFSPac® is a division of PortionPac Chemical Corporation. PortionPac, founded in 1964, is the leading provider of pre-measured, maximum concentrate, portion control detergents. The PortionPac system reduces the resources used throughout a product's lifecycle of production, storage, distribution and disposal. The system minimizes environmental impact and eliminates the unsafe and ineffective habits of traditional cleaning procedures. Please visit <http://www.portionpaccorp.com> for more information.
