PortionPac Chemical Corporation Honored with Statewide Award for Sustainable Achievements

(November 1, 2016 - Chicago) PortionPac Chemical Corporation was honored to receive the 2016 Illinois Governor's Sustainability Award for its demonstrated leadership in sustainable practices.

The Office of the Governor and the Illinois Sustainable Technology Center presented the award to PortionPac Chemical Corporation for a recent overhaul of its product formulations. The company has undergone a complete transformation of its cleaning detergents to provide solutions that are free from OSHA Hazard Communication Standard hazards, deliver improved performance over previous offerings and reflect an increased commitment to Green Seal™ certification.

"Every successful business must constantly challenge itself to improve. The implementation of the 2012 OSHA Hazard Communication Standard was our opportunity to do just that, and we were able to create state-of-the-art, safer cleaners that reaffirm the sustainable values on which our company was founded over 50 years ago," said Burt Klein, president of PortionPac. In addition to product formulations, PortionPac completed its product update with redesigned packaging and a modernized, ISO 9001 certified manufacturing process.

Twenty-five Illinois businesses were recognized at the ceremony at the Union League Club of Chicago. Mark Ryan, PhD, Executive Director, Prairie Research Institute and Kevin O'Brien, PhD, Director, Illinois Sustainable Technology Center, presented the award to PortionPac Chemical Corporation President, Burt Klein, Board Chairman, Marvin Klein, Regulatory Compliance Director, Caryn Stets and Communication Manager, John Paulun.

The 2016 award marks the fifth time PortionPac Chemical Corporation has been recognized for sustainable achievements at the statewide level, having won the Illinois Governor's Pollution Prevention Award in 2006, and Continuous Improvement Awards in 2008, 2009, and 2011.

About PortionPac Chemical Corporation

PortionPac Chemical Corporation, founded in 1964, is the leading provider of pre-measured, concentrated, portion control cleaning detergents. The PortionPac Chemical Corporation Pac® brand cleaning system reduces the resources used throughout a product's lifecycle of production, storage, distribution and disposal. The system minimizes environmental impact and eliminates the unsafe and ineffective habits of traditional cleaning procedures. PortionPac®, CorrectPac® and SFSPac® are divisions of PortionPac Chemical Corporation. Please visit <http://www.portionpaccorp.com> for more information.
