PortionPac® Laundry Detergent Achieves Green Seal™ GS-51 certification

December 15, 2015 CHICAGO—PortionPac Chemical Corporation is proud to announce that its new and improved line of laundry detergents (940HE, CP940HE and SFS40) is now Green Seal™ GS-51 certified. PortionPac Chemical Corporation's laundry detergents are reformulated to make use of the latest advancements in detergent technology, and have also surpassed Green Seal's strict environmental benchmarks to perform as well, or better than, other market-leading detergents in its class.

"We are excited to offer our newly formulated, high efficiency laundry detergents that also carry the weight of Green Seal™ certification," said PortionPac® president Burt Klein. "State of the art technology was used to meet the market's desire for a high performance detergent with minimal environmental impact. Our new line of laundry detergents further cements our long standing position as an industry leader in sustainable cleaning."

Green Seal™ maintains the most rigorous voluntary environmental standards in the cleaning industry. Its comprehensive approach to certification involves evaluating every step of a product's creation from manufacture to disposal.

The certification of PortionPac Chemical Corporation Laundry Detergent by Green Seal™ was achieved through extensive evaluations of effective performance, concentration of product, minimized/recycled packaging, and protective limits on human and environmental toxicity.

"Green Seal™ congratulates PortionPac Chemical Corporation for its newly certified laundry products, adding to many others achieved over nearly 11 years," said Dr. Arthur Weissman, President & CEO of Green Seal™.

"This demonstrates their continuing leadership in protecting human health and the environment and is yet one more milestone in their long history of producing green cleaning chemicals."

PortionPac Chemical Corporation's laundry detergents are concentrated, pre-measured liquids for use in regular and high efficiency washing machines. The new line joins the growing family of PortionPac® products already certified by Green Seal™, including: ScrubPac® All Purpose Cleaner, BowlPac® Bathroom Cleaner, GlassPac® Glass Cleaner and MopPacLite® pH Neutral Floor Cleaner. For a complete list of PortionPac Chemical Corporation's certified products, please visit the [Green Seal™ website](#). Additional information about sustainable cleaning and the improved formulations of all PortionPac® detergents may be found on [PortionPac Chemical Corporation's website](#).

About PortionPac®

PortionPac Chemical Corporation, founded in 1964, is the leading provider of pre-measured, maximum concentrate, portion control detergents. The PortionPac Chemical Corporation Pac® brand cleaning system reduces the resources used throughout a product's lifecycle of production, storage, distribution and disposal. The system minimizes environmental impact and eliminates the unsafe and ineffective habits of traditional cleaning procedures. PortionPac®, CorrectPac® and SFSPac® are divisions of PortionPac Chemical Corporation. Please visit <http://www.portionpaccorp.com> for more information.
