## **Improved SteamPac® Carpet Extraction Detergent Attains Green Seal™ Certification**

February 4, 2016 CHICAGO—PortionPac Chemical Corporation's reformulated SteamPac® Carpet Extraction Detergent (1203, 1207, 1210) has achieved Green Seal™ certification. The brand new SteamPac® is free of VOCs, has no hazards according to OSHA and meets the stringent environmental and performance standards for GS-37 certification.

Green Seal™'s voluntary environmental standards are the most rigorous in the cleaning industry. The comprehensive approach to certification involves evaluating every step of a product's creation from manufacture to disposal. Certification of SteamPac® Carpet Extraction Detergent by Green Seal™ was achieved by meeting or exceeding the standard's prescribed criteria for effective performance, concentrated volume, minimized/recycled packaging, and protective limits on VOCs and human and environmental toxicity. Green Seal™ also evaluates each producer's corporate responsibility through a review of its marketing materials, human resources policies and the energy expended to manufacture each product.

"With so many claims in the marketplace, cleaning customers rely on the independent third-party certification of Green Seal™ to ensure effective, safer and more environmentally conscientious products," said PortionPac® president Burt Klein. "The reformulation and recertification of SteamPac® goes beyond typical industry benchmarks for sustainable detergents."

SteamPac® Carpet Extraction Detergent is a highly concentrated, pre-measured liquid detergent available for use in both manual and autoscrubber applications. The improved SteamPac® offers state-of-the-art extraction technology, and includes a pre-measured defoamer that eliminates the need to purchase an additional stand-alone product. Like all PortionPac detergents, SteamPac® delivers the Pac® brand pouch promises of simple and accurate dilution, permanent OSHA compliant labeling and minimized packaging.

The new SteamPac® Carpet Extraction Detergent proudly joins the growing family of PortionPac® products already certified by Green Seal™, including: ScrubPac® All Purpose Cleaner, BowlPac® Bathroom Cleaner, GlassPac® Glass Cleaner, MopPacLite® pH Neutral Floor Cleaner, NeutraPac® Neutralizer/Floor Conditioner and LaundryPac® High Efficiency Laundry Detergent. For a complete list of PortionPac Chemical Corporation's certified products, please visit the [Green Seal™ website](#). Additional information about sustainable cleaning and the improved formulations of all PortionPac® detergents may be found on [PortionPac Chemical Corporation's website](#).

### **About PortionPac®**

PortionPac Chemical Corporation, founded in 1964, is the leading provider of pre-measured, maximum concentrate, portion control detergents. The PortionPac Chemical Corporation Pac® brand cleaning system reduces the resources used throughout a product's lifecycle of production, storage, distribution and disposal. The system minimizes environmental impact and eliminates the unsafe and ineffective habits of traditional cleaning procedures. PortionPac®, CorrectPac® and SFSPac® are divisions of PortionPac Chemical Corporation. Please visit <http://www.portionpaccorp.com> for more information.
